

Data Across the AI Lifecycle

Annotation Layer

Labels & Ground Truth support supervised learning and benchmarks.

ITERATIVE REVISION PATH

Data Quality Viewpoints

VALIDITY

- Currentness
- Availability & Recoverability

System-Dependent Validity

RELIABILITY

- Consistency
- Accuracy
- Precision
- Credibility
- Traceability
- Compliance

FIDELITY

- Completeness
- Representativeness
- Balance
- Diversity
- Similarity
- Relevance
- Timeliness

MAINTAINABILITY

- Accessibility
- Auditability
- Understandability
- Portability
- Identifiability
- Efficiency
